Corrigendum

Corrigendum to: C-reactive protein is associated with the development of tongue squamous cell carcinoma

Jianxin Du, Wei Hu, Chengzhe Yang, Yegang Wang, Xiaoying Wang, and Pishan Yang

In the original version of this manuscript, an error was found in Figure 6. The correct figure is as follows. The authors apologize for the error.

**Figure 6.** CRP treatment could remarkably induce Akt, mTOR and S6 phosphorylation. With 10 μg/mL CRP stimulation, the expression levels of pAkt, pmTOR for up to 60 min and that of pS6 for up to 30 min were significantly up-regulated. When the treatment time was extended to 120 min, the protein expression levels of pAkt, pmTOR and pS6 were down-regulated. Data are presented as the mean ± SEM, *P < 0.05.
